

The 50 MHz DX Bulletin

Volume 11, Issue 7

July 2000

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$20 U.S. third class mail, \$25 U.S./Canada/Mexico airmail, \$25 by surface and \$30 by airmail elsewhere for 12 issues. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4554 USA or to P O Box 762, Menlo Park, CA 94026 USA. My Internet address is frank@horizon.sri.com. The bulletin may be freely quoted, provided that credit is given.

CW Subbands Spared

News came from the ARRL shortly after our last issue was published that the FCC has dismissed a petition by the California Six Meter Club to allow SSB and digital modes in the 50.0-50.1 MHz cw subband.

DX Operations

Most of the listings in this column come from *Six Metre Info* by SM7AED.

Tromelin, FR/F: The Lyon DX Group DXpedition to Tromelin should be QRV until August 16. 50.110 SSB.

Liechtenstein, HB0/PI4TUE: in JN47TC should be QRV until August 15. 50.105 CW/50.125 SSB.

Svalbard, JW/DL3NRV will be QRV on 6 until mid-September from Longyearbyen. He has a vertical and an IC-706, with which he worked about 70 Europeans July 25.

JW7M, active until July 13, was divided into two groups. The 6m hams were in a Russian cottage on Icelake with reduced equipment as the generator delivered 300V instead of 220V and caused some destruction. Therefore they had to use battery operation. SM3EQY operated 6m evenings, but the only station heard was VE8BY/b the night of July 9. The group returned to the main group at Barentsburg on July 10 and on the 11th they had auroral E propagation to Scandinavia, hearing OH9SIX/b, OH6JW, SM3GSK, OH7KM, SM3VEE, OH6MPC, OH1AYQ, SM4EFW, OH1ZAA, and VE8BY/b. They called lots of CQs but had no reply.

Guyana, 8R, or French Guiana, FY: Arliss, W7XU has tentative plans for a trip to French Guiana and Guyana in late October and early November. w7xu@dtgnet.com.

Jamaica: Chris, W3CMP, is considering a trip to Jamaica to coincide with the 2nd weekend of the ARRL EME contest (November).

Ascension Is., ZD8SIX: Chris, G3WOS, indicates he will be QRV on 6m starting October 30.

Ogasawara, JA1OZK/JD1: Look for 6m activity from here (AS-031) between August 13 and 16.

Antigua, V26: 6m will be activated on a low profile from August 11-24 by the Low Land DXpedition Team.

Barbados, 8P: The Low Land DXpedition Team will be here August 24-September 4.

Bhutan, A5: French members of the Clipperton DX Club will leave Paris September 1 and return September 15, and presumably operate 6m some time between.

Kingman Reef and Palmyra Atoll, KH5K: 16 operators will operate 6 stations for approx. 12 days in early October including 2 weekends.

Guadeloupe, FG: Jon, N0JK, is considering a 6m DXpedition this Fall to FG, maybe the second or third week in November.

Mexico, XE/G3SVD: Andy will be on 6m from EK09 until August 25 from a location about 2700m ASL.

Kazakhstan, UN7QX: Andy, in MN83KE, reports he is on 50.103-50.105 CW every day from 1500Z.

Tristan da Cunha, ZD9ZM: Bob Henderson, G3ZEM, plans to be QRV September 5-25.

Aland Island, OH0/SM: A group of SMs will be making their traditional DXpedition to Aland between August 10-13.

Canadian Artic: Ray Perrin VE3FN from Ottawa was recently (<July 24) in Iqaluit, Nunavut (FP53), the same place where the VE8BY beacon is located. During Ray's brief operation as VE3FN/VY0, he never heard a single signal on 6m. Ray travels there regularly on business, is a very keen VHF weak-signal operator and will do his best to work some people on a future trip.

Palestine, E4: Hide, JM1LJS, is on a sightseeing trip and intends to be QRV in his spare time on 40, 30, 15, 10 and 6 meters as E4/JM1LJS from August 6 to 13. QSL via JL2XUN.

Ship Harmonics: A few years back it was not uncommon to hear a lot of ship harmonics (CW) in the 6m band. These were usually the 3rd harmonic of their 16 MHz rigs. Since the demise of maritime CW traffic, I haven't heard anything like this until last week. Last week, while beaming the Pacific, I heard the 16 Mhz harmonic of a ship on SITOR (sounds the same as AMTOR - clink-clink-clink); it was the 3rd harmonic of his 16.691 MHz signal ($16.691 \times 3 = 50.073$), the working channel for NMC, San Francisco Coast Guard. Evidently this was being propagated from somewhere out in the Pacific via Es or multi-hop Es. A short time later I worked VK4PU on CW on a Es - F2 link.

The second occurrence was similar only this time the signal was from the 16.705 MHz harmonic ($16.705 \times 3 = 50.115$), the working frequency for WLO, Mobile, AB. Evidently this signal was being propagated out of the Caribbean or Gulf of Mexico. A short time later I worked KK4MO/mm in EL48 followed by KP4A in FK68.

Point is -- keep an ear out for these maritime harmonics. They are strong and offer an excellent "heads-up" for 6m propagation into the Pacific and the Caribbean/Central America....we need every break we can get on this band!

Steve / VE7SL

June-July 00 DX Reports

The following reports of 50 MHz and higher DX propagation are courtesy of JA1VOK, G4UPS, YO7VS, TI5KD, EH8BPX, VE7SKA, K6QXY, W3EP, W5UWB, WA6JRA, W6YLL, WB4WXE, XE2HWB and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

The first entry is *mmddhhii*, where *mm* is the month, *dd* is the day of the month, *hh* is the hour UTC, and *ii* is the minutes after the hour. The year is understood to be 2000. A + to the right of the time indicates the observation was one of several in a time period and is probably later than the time reported. A ~ indicates approximate time. The grid square of the observing station may occur after a > symbol; however a time after > indicates the opening was still in progress at this time. A t indicates tentative identification of a TV station. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, P=PSK31, R=RTTY, S=SSB, T=Television, W=mode not mentioned (or both CW & SSB), H=heard only.
